

Make The Banks, Corporations & Pentagon pay!

Bail Out The People Not Banks

JOBS Not Racism and War!

\$ For Education & Social Security not Prisons!

Unions, Yes! Legalization for Immigrants NOW!

Scott Walker and other politicians bought and paid for by the rich think they have us beat. They don't. They can never defeat us-if we don't let them. We will not stand for union-busting. We will not take having our unions busted and our social safety nets gutted after generations of hard work and sacrifice. We are fighting back and we need you to join us!

The Bailout the People Movement (BOPM) is a national network that was founded in October 2008 to oppose the trillion dollar bank bail out and to demand that poor and working people get bailed out instead.

Since then BOPM has taken up the most crucial issues facing workers, students and ordinary people: including jobs; foreclosures and evictions; education and student rights; immigrant and worker's rights; LGBTQ rights, stopping racism and hate groups like the Tea Party; opposing the ongoing wars that are bleeding the economy dry; fighting to stop trillions of dollars being given to the banks; advocating for health care for all; demanding reproductive freedom and justice for women and much more.

We are fighting for a national Public Works Jobs Program much like the Works Progress Administration (WPA) enacted during the Great Depression, for a moratorium on home foreclosures, evictions and utility shut-offs, the Employee Free Choice Act, full rights for immigrant workers, and to stop all attacks on poor and working people. We have been participating in the people's uprising in Wisconsin and at Bloombergville in New York City. Please join us.

Together, we will fight back and win! Si Se Puede (Yes, We Can)!

AN INJURY TO ONE IS AN INJURY TO ALL!
