---

Andy Andre (Legal Name: Ljubomir Andrijasevic), a longtime progressive political activist and Bryan G. Pfeifer, a Wisconsin Bail Out The People Movement organizer and an independent journalist are appealing to labor, community and student supporters in an effort to help get bogus charges against them dropped.

Bryan and Andy were arrested August 26, 2011 while protesting Scott Walker's appearance at Messmer school in the Riverwest neighborhood in Milwaukee. Both were charged with one municipal citation each of Resisting/Obstructing an Officer.

Andy and Bryan are fighting these bogus charges because they are an attempt to put a chill on the entire progressive political movement in Wisconsin and beyond. These charges are also an attempt to stop those fighting police harassment and brutality, union-busting and other austerity measures on poor and working people. We will not be silenced! We will not allow our constitutional rights to be taken away! Protesting Scott Walker and other politicians' attacking poor and working people are not crimes!

The WI BOPM thanks the labor-student-community supporters who are already helping on this campaign. We still need your help and many others. A victory in this campaign will be a victory for everyone in the progressive movement. If you can help with fundraisers or other activities please contact us.
