The ***Moratorium Now! Coalition***, which has been raising the demand for a moratorium on foreclosures and challenging foreclosures and evictions in Michigan for the past five years, invites all activists to come to Detroit—the city hit hardest by the economic war on the 99%—for a one day conference on March 31, 2012. The conference will be an opportunity to share our experiences fighting foreclosures and evictions through direct actions. We will share legal strategies in challenging the banks in federal and state courts. And we will plan a campaign to raise and win the demand for a National Two Year Moratorium on Foreclosures and Foreclosure-Related evictions.
