

Super bigot Trump must be stopped Russia didn't send him to the White House

Don't believe the "fake news" about Russian computer hackers throwing the election to Trump

- As Rev. Jesse Jackson, Sr. pointed out: "Left out of this brouhaha is the systematic and purposeful voter suppression that certainly cost Clinton the election. The Russians didn't do it. It was done by right-wing partisan state officials eager to suppress the vote of people of color, the young, and the working poor."

- It was the U.S. Supreme Court that gutted the Voting Rights Act—not Russia. And Russia didn't create the Electoral College that made Donald Trump president while Hillary Clinton received nearly 3 million more votes. Blame slave master James Madison who devised the Electoral College to protect slavery.

- The capitalist media gave Trump nearly \$3 billion of free publicity. (Market Watch, May 6) It was NBC that made this racist clown a nationally known figure by giving him his own TV show.

- The CIA claims that Russian Government operatives hacked the files of the Democratic National Committee and John Podesta, Hillary Clinton's campaign manager, giving the info to WikiLeaks. But Julian Assange, editor-in chief of WikiLeaks, denies Russia was the source. Craig Murray, a former British Ambassador to Uzbekistan who's now working with WikiLeaks, says that the material came from a "disgusted" Democratic Party whistleblower. All it takes is someone with a thumb drive and access.

- WikiLeaks revealed the truth about the DNC

- sabotaging Bernie Sanders' campaign. That's whistle blowing just like the truth telling carried out by Chelsea Manning, who exposed U.S. war crimes in Afghanistan and Iraq..

- Why should anybody believe the world's largest and bloodiest terrorist organization, the CIA? CIA agent Donald Rickard tipped-off the apartheid secret police that arrested Nelson Mandela, who spent over 27 years in prison. (BBC, May 15)

Former CIA Director George Tenet said it was a "slam dunk" case that Iraq had weapons of mass destruction.

- The Pentagon spent at least \$5.5 trillion on nuclear weapons aimed at the Soviet Union, according to the Nuclear Threat Initiative. The overthrow of the socialist Soviet Union was an immense tragedy for poor and working people everywhere, just like the defeat of Reconstruction was for Black people in the U.S.

- U.S. capitalists continued to meddle after the break-up of the Soviet Union in 1991. U.S. election consultants boasted they helped reelect Russian President Boris Yeltsin in 1996. (L.A. Times, July 9, 1996)

- The CIA's "fake news" is echoed by the Republican Senator and Trump supporter John McCain. Don't let them divert our struggle against Trump. Our enemies are in the Pentagon and corporate boardrooms—not in Moscow!
