

Joint the Caravan in the fight against corporate greed

Honeywell profited by \$4.8 billion in 2015. Yet, they are determined to turn back 80 years of bargaining by forcing their UAW workforce out in a lockout. The workers at UAW Local 9 and UAW Local 1508 voted the original contract down by 90%. After unemployment benefits ran out Honeywell made some minor changes and pushed for another vote. This time it was rejected by 70%. Help defeat this vicious economic blackmail!

February 11th 1937 was the day the Flint Sitdown Strike ended in victory for the UAW. Each year this victory is remembered by wearing a white shirt to work to show we are equals with the boss.

This year we will join in solidarity with a local that was an inspiration to Flint. UAW Local 9 staged the first sitdown strike in the UAW on November 17th 1936 at Bendix in South Bend Indiana. Today the historic UAW Local 9 is in the midst of a lock out by Honeywell Corp for the past nine months.
